GENERAL INFORMATION

This product is most effective when plants are growing rapidly and least effective when dormant or suffering from stress. This product is compatible with most pesticides and fertilizers, with the exception of amine formulations and high phosphate fertilizers. Do not use in tank mix with either amine formulations or high phosphate fertilizers. To enhance the performance of this product on plants with a waxy leaf surface, add Bonide Turbo Spreader Sticker to the diluted mixture for Foliar Spray.

DIRECTIONS FOR USE

Apply Only As Directed. Make 3 to 5 applications annually.

Note: This product may stain concrete, siding or painted surfaces if not washed off immediately after application.

SOIL APPLICATION

For Soil Drench: Mix 1 1/4 oz concentrate into one gallon of water = mixture

Shrub	Plant Height	Amt. of Mixture	How to Apply
Azalea, Camellia, Cherry Laurel, Crepe Myrtle, Euonymus, Forsythia, Gardenia, Honeysuckle, Hydrangea, Ligustrum, Pyracantha, Rhododendron, Rose, Spiraea and smaller shrubs & vines.	1-3 ft. 3-6 ft.	5-6 oz. 10-12 oz.	Apply mixture directly under shrub

Large Shrub or Tree	Amt. of Mixture	How to Apply
Catalpa, Chinese Arborvitae, Cypress, Dogwood, Elm, Ginkgo, Juniper, Magnolia, Maple, Mimosa, Pin Oak, Pine, Russian Olive, Spruce, Sycamore, Sweet Gum and other trees and very large woody shrubs.	Apply 1 pint mixture per 1” of tree trunk (measured at chest height) from soil.	Apply mixture around perimeter of the trunk within the root zone.

Herbaceous Plants	Amt. of Mixture	How to Apply
Hardy Aster, Alyssum, Canna, Carnation, Chrysanthemum, Daylily, Fern, Geranium, Gladiolus, Iris, Larkspur, Marigold, Nasturtium, Petunia, Portulaca, Verbena, and similar annual and perennials	3 gallons per 100 sq. ft.	Apply Mixture directly underneath plants

Water in thoroughly after application.

FOLIAR SPRAY

Shrubs	Mix 1 1/4 oz per gallon of water and spray to the point of run-off.
Large shrub, tree	Mix 1 1/4 oz per gallon of water and spray to the point of run-off.
Herbaceous plants	Mix 2/3 oz per gallon of water and spray to the point of run-off.
Turf: Bahia, Bent, Bermuda, Centipede, Fescue, St. Augustine, Zoysia, Bluegrass, Ryegrass, and other grasses	Mix 6 oz per gallon of water and spray to the point of runoff. One gallon of mixture covers approximately 1000 square feet.

Foliar Fertilization is intended as a supplement to a regular fertilization program and may not, by itself, provide the nutrients normally required by crops or other intended plants.

STORAGE: Store and transport in an upright position. Store in original container, in a cool dry place, out of reach of children and pets.
