EPA Est. No. 4-NY-1 EPA Reg. No. 4-480

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For residential use only. Not for use indoors.

IRON WILL STAIN. Use this product on lawns and around flowers and ornamental shrubs. Keep this product off surfaces such as sidewalks, patios, wooden decks, driveways and clothing. Sweep concrete surfaces immediately to prevent staining. If concrete is wet when contact occurs, staining may be impossible to prevent.

RATE OF APPLICATION

For normal infestations of moss, apply this product at the rate of 4 pounds per 1,000 sq.ft.
 A 6 lb. container will cover 1,500 sq. ft.
 For heavy infestations of moss, apply at the rate of 4 pounds per 500 sq.ft.
 A 6 lb. container will cover 750 sq. ft.

Lawn moss thrives in damp, shady areas where the soil is acidic and drainage may be poor. If steps are not taken, moss can spread and take over a lawn. This product will quickly kill lawn moss, giving your lawn grass the opportunity to fill in and reclaim the lawn.

For best results, apply this product when the lawn is moist. Mow before application, to better expose existing moss and water in to activate the product.

As A Spot Treatment In LAWNS and around Ornamental Shrubs and Flowers:

Apply anytime moss is actively growing and soil is moist. Sprinkle granules over the mossy area. Immediately after application, water-in. Wait several days until the moss turns black and dies, then gently rake it out.

IMPORTANT: This product can burn delicate foliage if applied directly to flowers and ornamental shrubs. If contact does occur, use a garden hose to wash the product off of the plants immediately.

STORAGE AND DISPOSAL

Pesticide Storage: Store and transport in an upright position. Store in a cool dry area inaccessible to children.

Pesticide Disposal: *If partly filled* – Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Container Disposal: *If empty* – Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

FIRST AID

| | |
|--------------------------------|--|
| IF IN EYES: | <ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice. |
| IF SWALLOWED: | <ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person. |
| IF ON SKIN OR CLOTHING: | <ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice. |
| IF INHALED: | <ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice. |

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. To protect the environment, do not allow granules to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

GUARANTEED ANALYSIS

Iron (Fe) 7.0%

Derived from ferrous sulfate. F1290
