STOP! READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PRECAUTIONS AND RESTRICTIONS

- Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until sprays have dried.
- Do not exceed specified dosage. This product is intended for spot spraying individual weeds only.
- Do not apply as a fine mist because of potential for injury to desirable plants.
- Do not use this product on or near desirable plants, including contact of spray on exposed root systems or adventitious shoots within the drip line of desirable trees and shrubs, since injury may result.
- Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. Do not apply when windy. To prevent product run-off, do not over water the treated area to the point of runoff or apply when raining or when rain is expected that day.

WHAT IT IS AND HOW TO USE IT

This product contains TRIMEC® turf herbicide, a combination of three proven weed killers 2,4-D, mecoprop-p and dicamba. Together they control a wide range of broadleaf lawn weeds; which are listed on this label.

Use to "spot-treat" weeds in the lawn. For best results, apply when weeds are actively growing. Do not water within 24 hours after spraying. Use as is. Do not mix. Do not dilute. Aim at weed and spray. Only a short burst is needed. Overspraying only wastes the product and may cause damage to grasses such as centipedegrass, St. Augustinegrass, and Floratam. Effects begin to show after a few days and weeds gradually die. Up to 4 weeks may be required for complete kill. Repeat in 30 days if necessary. The number of spot treatments is limited to 2 per year.

CONTROLS

Black Medic, Buckhorn, Cudweed, Common Dandelion, Dollarweed (Pennywort) Healall, Indian Mustard, Stinging Nettle (burning), Perennial Pepperweed, Smooth Pigweed, Broadleaf Plantain, Poison Ivy, Poison Oak, Common Speedwell, Prostrate Spurge, Canada Thistle, Common Chickweed, Chicory, White Clover, Creeping Jenny (Creeping Charlie), Herbit, Prostrate Knotweed, Lambsquarters, Lespedeza, Matchweed, Ivy leaf Morningglory, Prickly Lettuce (Compass Plant), Common Purslane, Common Ragweed, Shepherd's purse, Wild Garlic, Wild Lettuce, Wild Onion, Wild Violet, Common Yarrow, Ground Ivy, Wild Vetch, Cinquefoil, Common Mallow, Virginia Creeper.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also call toll-free, 1-877-800-5556 for emergency medical treatment information. For information on this pesticide product (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if absorbed through skin. Harmful if swallowed. Avoid contact with skin, eyes or clothing. Causes moderate eye irritation. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear long-sleeved shirt, long pants, socks, shoes and gloves. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

LIMITED WARRANTY AND DISCLAIMER
